AATIFKHAN PATHAN

SENIOR FRONTEND ENGINEER (ANGULAR)

Ahmedabad, Gujarat, India | +91 75729 77724 | pathanaatif6@gmail.com

SUMMARY

Angular Developer with 6+ years of experience building enterprise-scale web applications, AI-powered SaaS platforms, workflow automation systems, and Progressive Web Applications. Strong expertise in Angular, TypeScript, RxJS, REST APIs, Reactive Forms, Angular Material, NextJs, PrimeNG, TailwindCSS and responsive web development. Experienced in reusable component architecture, reactive state management, complex data visualization, BPMN workflow integration, real-time applications, document generation, performance optimization, and enterprise application security.

TECHNICAL SKILLS

- Front-end Technologies: Angular, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular Material, PrimeNG
- State Management & Reactive Programming: RxJS, Reactive Forms
- API & Integration: REST APIs, JWT Authentication, AJAX, JSON
- UI & Visualization: BPMN.js, GrapesJS, Google Maps API, Mapbox, Chart.js
- Real-Time Technologies: WebSockets, Socket.IO, STOMP, SockJS
- Tools: Git, GitHub, GitLab, Angular CLI, npm
- Methodologies: Agile, Scrum, Code Reviews, Unit Testing

WORK EXPERIENCE

GTC Software - Ahmedabad, Gujarat Nov, 2025 - Present

Angular Developer

- Develop enterprise-scale web applications using Angular 20, TypeScript, RxJS, REST APIs, Reactive Forms, and modern frontend architecture.
- Build reusable Angular components, shared modules, services, and responsive interfaces for complex enterprise workflows and data-driven applications.
- Implement reactive state management using RxJS BehaviorSubject/Observable patterns for filtering, pagination, loading states, and asynchronous data flows.
- Develop data-intensive features including Data Dictionary/taxonomy management, CSV/JSON ingestion, schema mapping, search, filtering, and document management.
- Integrate complex third-party frontend libraries including BPMN.js for workflow modeling and Cytoscape.js for interactive knowledge graph visualization.
- Implement secure and real-time application functionality using JWT authentication, Angular Route Guards, REST services, WebSockets, STOMP, and SockJS.
- Troubleshoot production issues, optimize frontend performance, participate in code reviews and Agile ceremonies, and collaborate with backend developers and stakeholders to deliver scalable solutions.

Innodel Technologies Pvt. Ltd. - Ahmedabad, Gujarat Sep, 2023 - Oct, 2025
Angular & Next.js Developer

- Developed enterprise web applications using Angular, Next.js, TypeScript, and Tailwind CSS.
- Built a PWA delivered across web and mobile platforms.
- Developed admin panels for project management, user management, reporting, and analytics.
- Integrated Google Maps API and Mapbox for geolocation-based functionality.
- Implemented JWT authentication and role-based access management.
- Optimized application performance using RxJS and lazy loading.

Isyncevolution Pvt. Ltd. - Ahmedabad, Gujarat June, 2022 - Aug, 2023
Angular Developer

- Developed e-commerce, social networking, and content-driven web applications.
- Integrated REST APIs and payment gateways including Stripe and PayPal.
- Implemented Socket.IO-based real-time communication features.
- Applied SEO best practices to improve website visibility.
- Built secure authentication and authorization workflows using JWT.

Albiorix Technology Pvt. Ltd. - Ahmedabad, Gujarat Nov, 2021 - Mar, 2022
Jr. MEAN Developer

- Developed and maintained Angular-based applications with dynamic, real-time features.
- Implemented authentication and authorization using JWT.
- Optimized frontend performance and ensured smooth user experiences across devices.

Attune Infocom Pvt. Ltd. - Ahmedabad, Gujarat Jan, 2020 - Feb, 2021
Jr. Ionic Developer

- Built cross-platform applications using Ionic and integrated with Google Maps APIs for location-based services.
- Delivered efficient, client-focused solutions, adapting quickly to evolving requirements.

KEY ACHIEVEMENTS

- Delivered a production Angular PWA across web and mobile platforms, providing a native-like cross-platform experience without maintaining separate codebases.
- Architected and delivered enterprise Angular applications with reusable component architecture, reactive data handling, REST API integration, and responsive interfaces across complex business workflows.
- Improved application performance and maintainability through lazy loading, reusable modules, optimized reactive data flows, and structured frontend architecture.
- Reduced project management effort by 20% through intelligent feature integration in an enterprise construction management platform.

EDUCATION

Bachelor of Science - CS 2016 - 2019
Gujarat University, Ahmedabad

Intermediate (10 + 2) 2014 - 2016
ST. Xavier's Higher Secondary School, Ahmedabad
